DeFelt

LookUp™

Acoustic ceiling panels combining sound absorption with modern design. Easy to install, ideal for commercial interiors, especially offices, ateliers and shops.

Why LookUp?

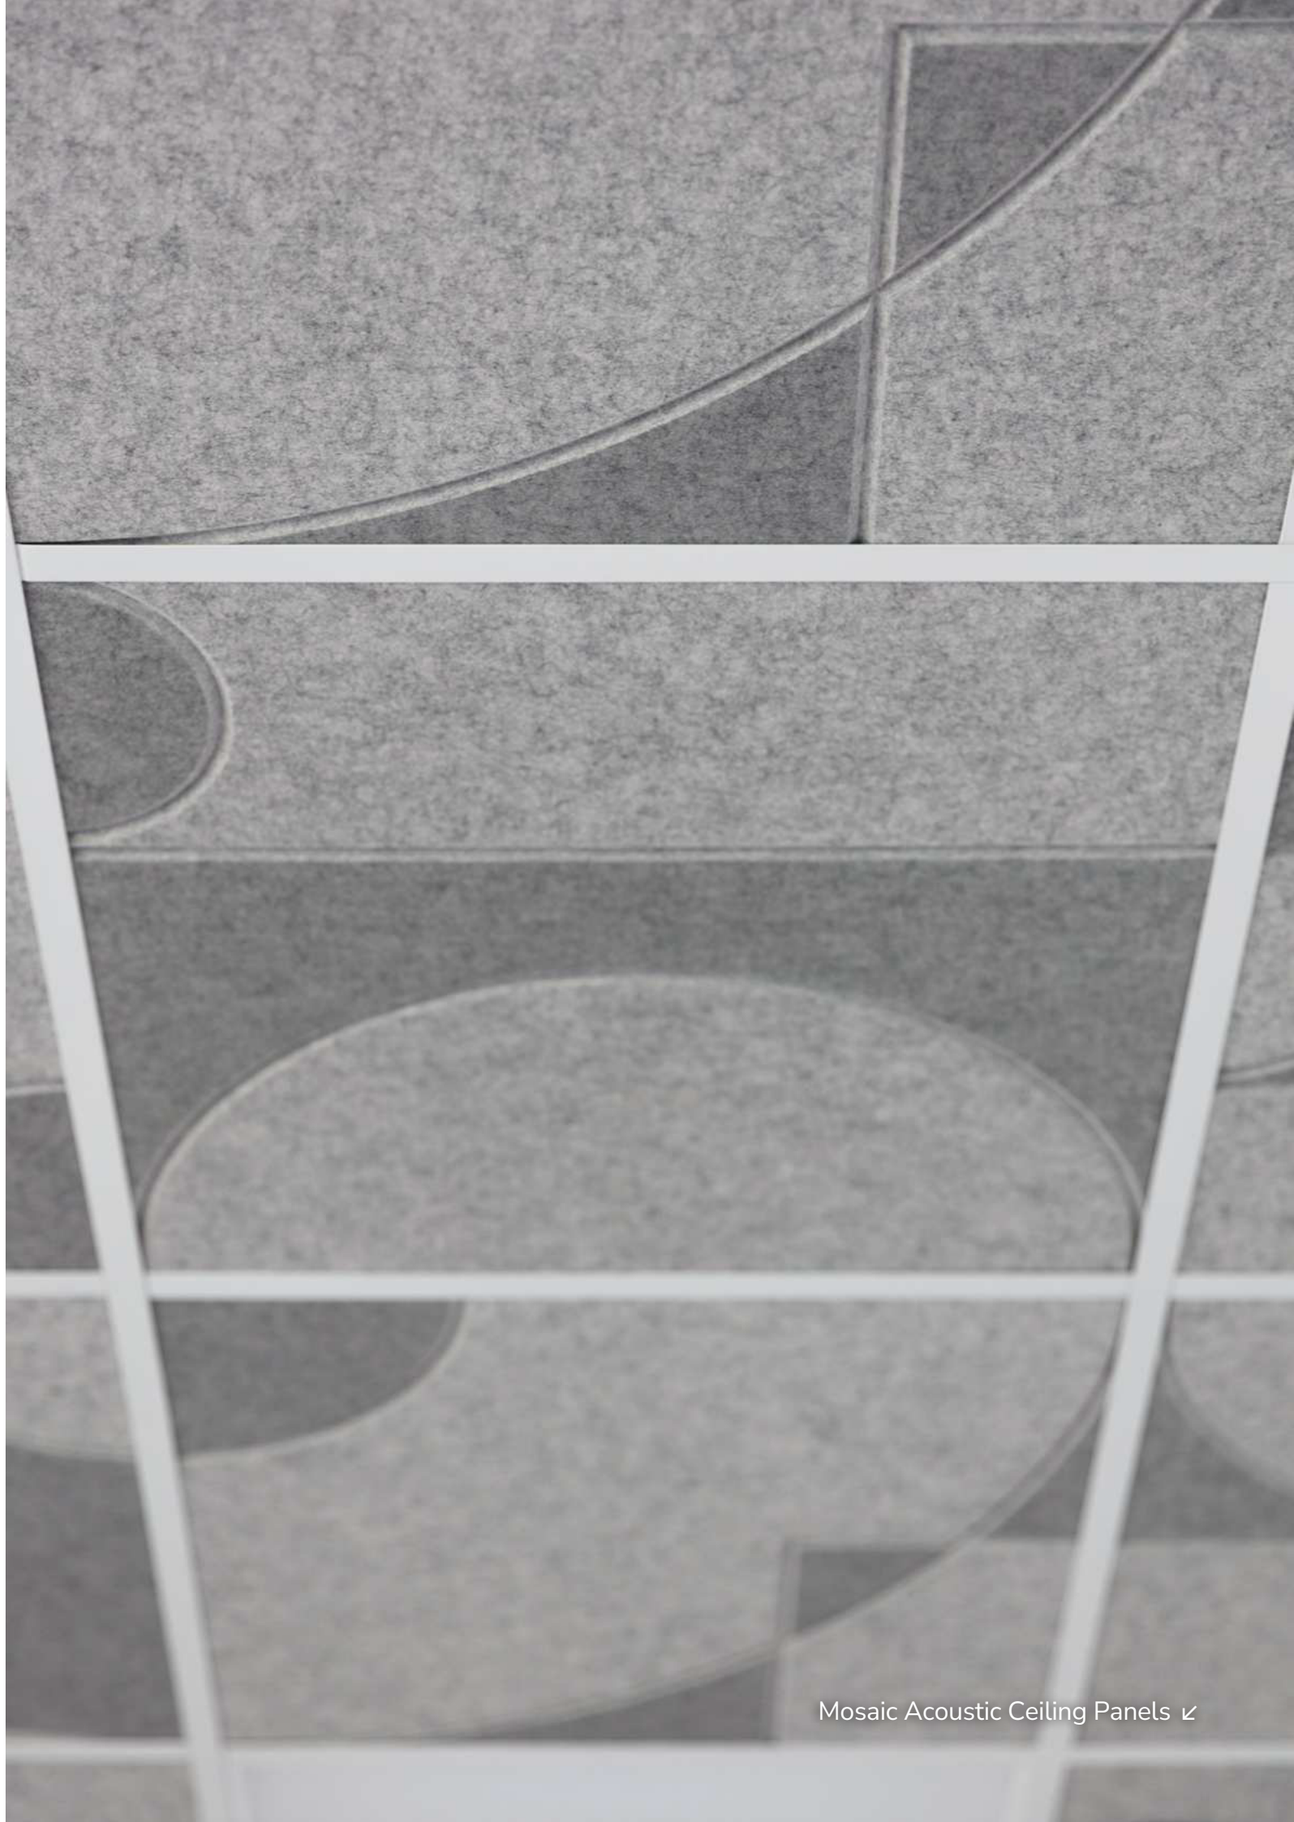

- Thoughtfully designed with a focus on aesthetics
- Made from recycled PET felt
- Modular formats & tileable patterns
- Create custom compositions — your wall, your rules
- Meets sustainability and quality standards

Origin

Born from our own office needs — designed to enhance acoustics and well-being with aesthetic impact.

LookUp™ Collection was designed with creativity and freedom in mind. Mix and match our patterns and colors to create a truly unique space.

Change your ceiling into an experience with LookUp™

Technical data

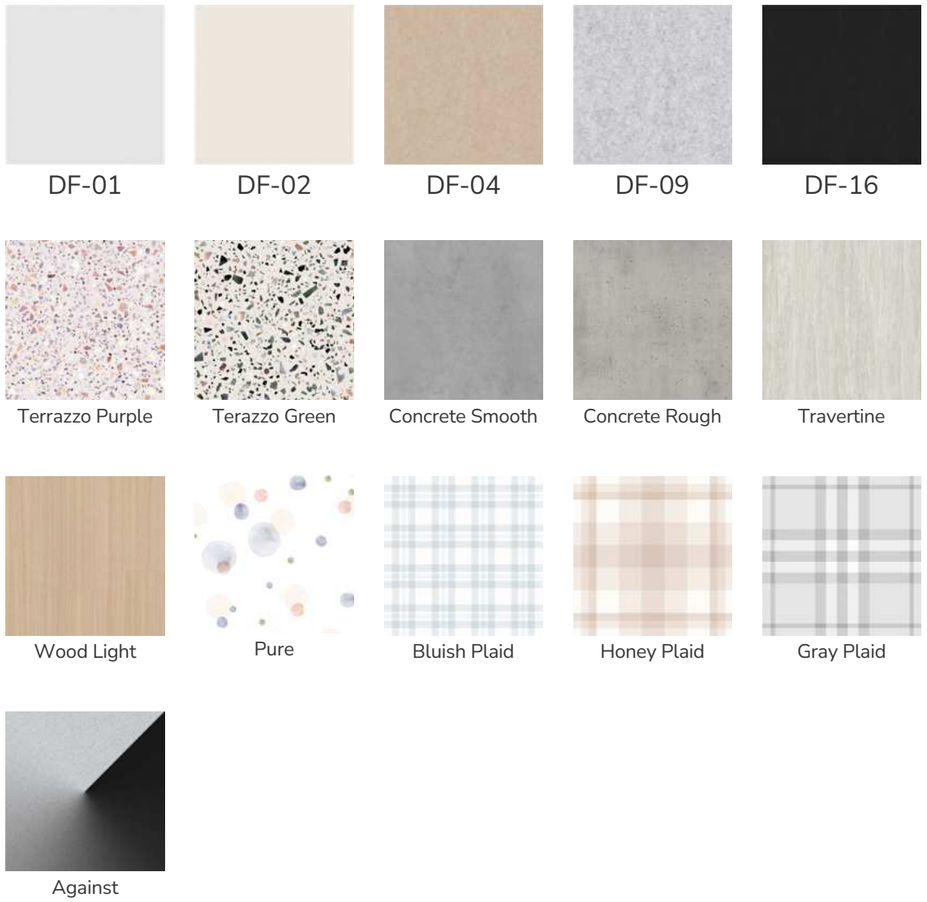

Size	Compatiable with 600 x 600 mm construction, real size 595 x 595 mm
Quantity per pack	16 pcs/ctn., coverage per pack 5,76 m²
Thickness & Density	9 mm – 1900 g/m²
Product weight	11 kg/ctn.
Material	100% PET (60% from recycled plastic bottles)
Fire-rating	Bs2, d0
Acoustic	The acoustic class for the 9 mm PET Felt material is Class B, based on its αw=0.80. The material class is based on EN ISO 11564

Product features

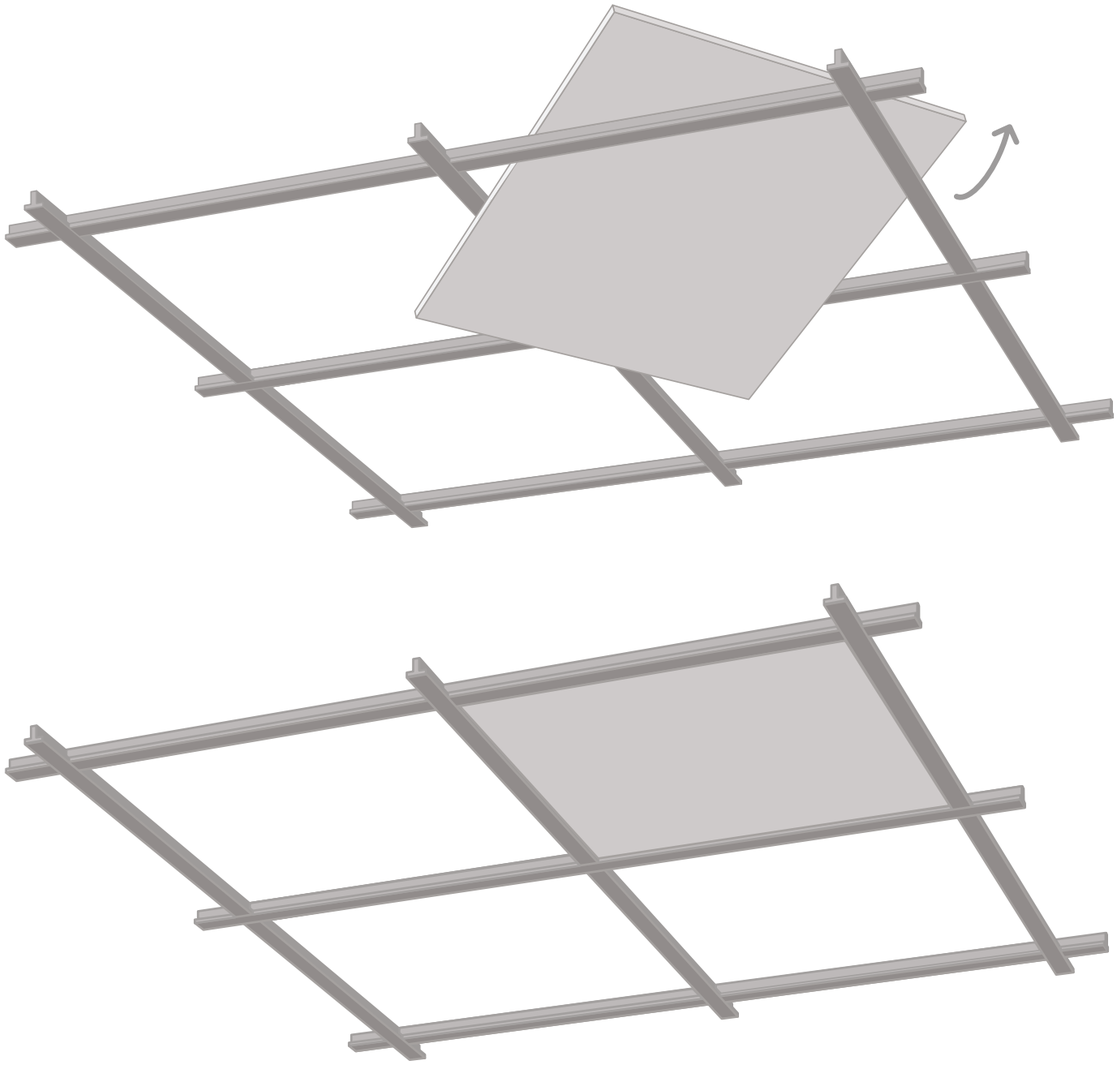

Colours & patterns

Available in 5 curated colours and 13 unique printed patterns, that harmonize beautifully in any setting. Mix and match colors and patterns to create a truly unique space.

05 Installation Guide

PET panels designed for installation in LookUp ceilings do not require additional tools, which makes both installation and replacement much easier.

① Carefully insert the ceiling panel at an angle into the grid opening. Make sure all edges of the panel are above the suspended frame.

② Gently lower the panel so it rests on the grid. If it doesn't sit evenly, lightly tap certain areas to help it settle into place.
